PROFESSIONAL SUMMARY

I am a frontend web developer with a wide range of skills. I specialize in creating/developing responsive, user-friendly, and accessible websites and web applications that are optimized for all devices. I am passionate about keeping up with the latest technologies, discovering innovative solutions, and continuously improving my abilities.

WORK EXPERIENCE

October 2021 **FRONTEND DEVELOPER, SELF LEARNING**

- Completed my full stack web developer training at jitSolutions and ever since, I have been investing heavily in online courses like Alison. Completed quite a number of courses and created amazing projects with my knowledge.
- NaN
